

Bead Balance

Y12 (2012) — English translation

Beads with the same charges q_1 , q_2 , q_3 are put on a smooth thread of length L , connected with a loop.

A1	Find the distances between the charges in equilibrium.	0
A2	Find the potential energy of the system $U_{\text{п}}$ at equilibrium.	0
A3	Investigate the stability of the equilibrium position.	0
